TECHNICAL SPECIFICATIONS

ABOUT THE PRODUCT

The Municipal Solid Waste Shredder is engineered to handle mixed municipal solid waste with high efficiency and reliability. Equipped with heavy-duty alloy steel blades and a high-torque drive system, it effectively reduces waste volume while improving downstream processing efficiency.

The machine is ideal for municipal corporations, recycling plants, waste transfer stations, RDF production facilities, and integrated waste management projects. Its modular design allows customization based on required processing capacity.

Designed for continuous industrial use, the shredder delivers low maintenance, energy-efficient operation, and long service life.

TECHNICAL SPECIFICATIONS

PARAMETER	DETAILS
 Model	DSS - 1200
 Capacity	1 - 15 ton
 Shaft Type	Dual Shaft, Counter Rotating
 Shaft Diameter	300 - 600 (Customizable)
 Material	High Alloy Steel
 Motor Power	kW (Customizable)

PARAMETER	DETAILS
 Gear Reducer	High Torque
 Output Size	20 - 150 mm
 Control System	PLC Automatic
 Weight	5000 kg

HIGH
EFFICIENCY

Complete combustion
with minimal residue.

LOW
EMISSION

Environment friendly
incineration with
controlled emissions.

AUTOMATIC
OPERATION

PLC based system for
safe and hassle-free
operation.

COST
EFFECTIVE

Low fuel consumption
and reduced
operating costs.

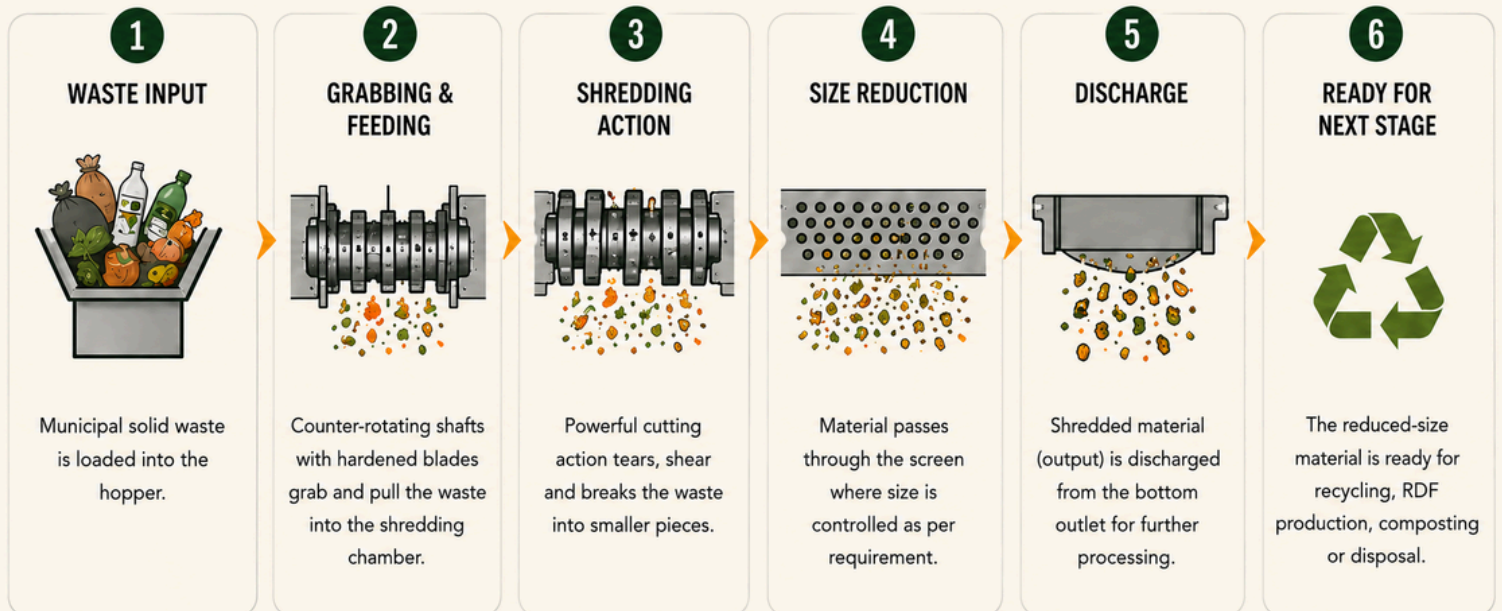

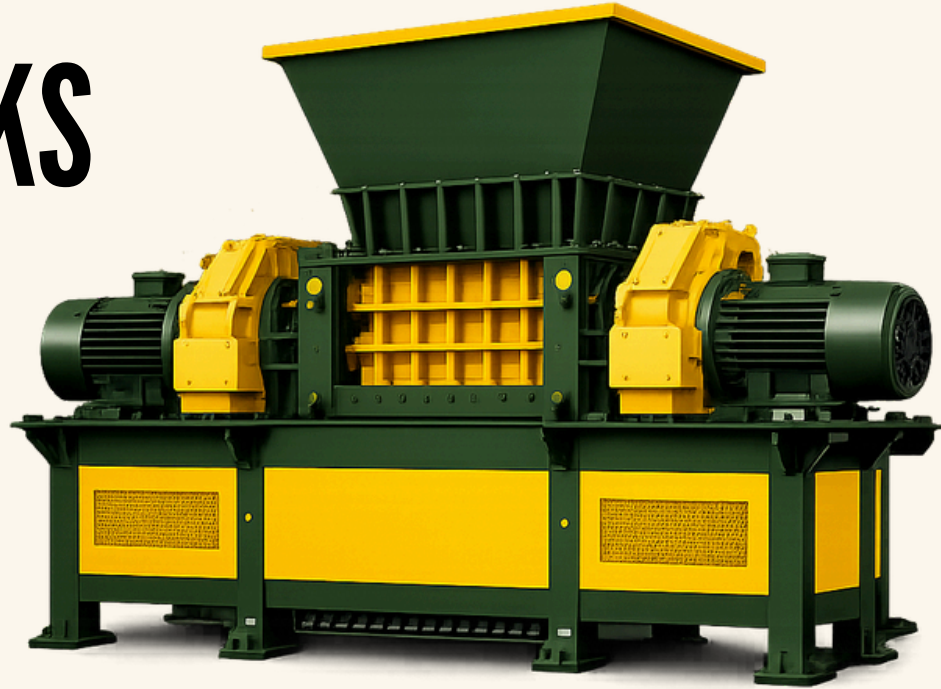

BUILT
TO LAST

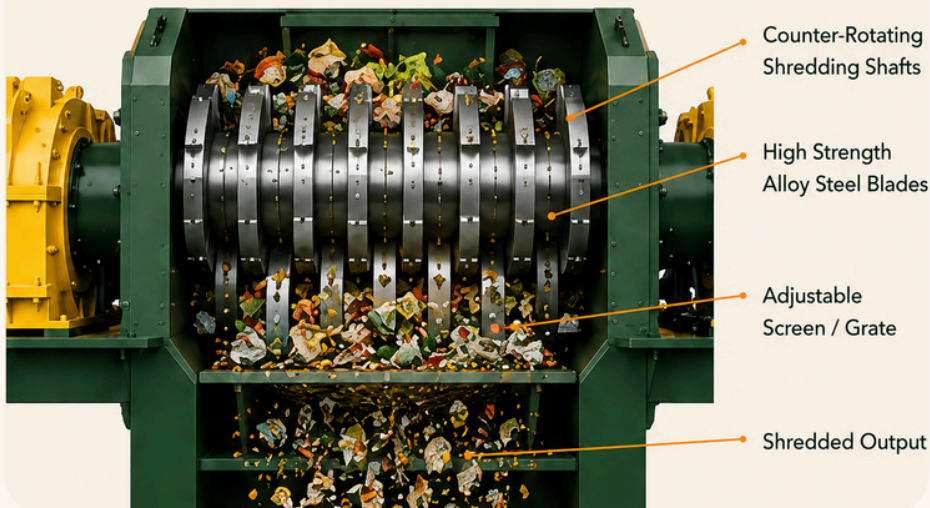

Robust construction for
long service life and
reliable performance.

HOW IT WORKS

Our Dual Shaft Shredding System efficiently reduces mixed municipal solid waste into smaller pieces through a powerful, multi-step shredding process.

INSIDE THE SHREDDING CHAMBER

BENEFITS

- High Efficiency & Throughput
- Significant Volume Reduction
- Low Power Consumption
- Durable & Reliable Performance
- Low Maintenance
- Long Service Life

SAFETY FEATURES

SAFETY GUARDS AND COVER

All moving parts are completely enclosed with durable guards to prevent accidental contact and ensure operator safety.

EMERGENCY STOP SYSTEM

Strategically placed E-stop buttons allow immediate shutdown in case of any emergency.

TEMPERATURE MONITORING

Continuous real-time monitoring ensures optimal combustion and safety.

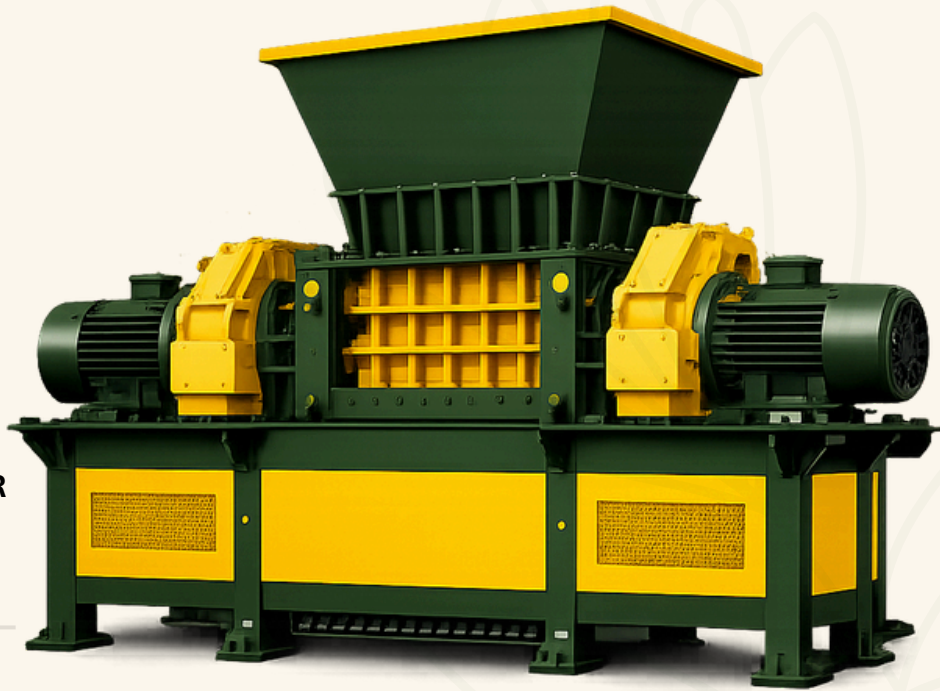

SAFETY INTERLOCK SYSTEM

Interlock switches on access doors and panels stop the machine automatically when opened.

LOW NOISE & VIBRATION

Built with precision balancing and noise dampening design for a safer and more comfortable working environment.

ABOUT US

iRA Synergy Private Limited is committed to delivering innovative and sustainable waste management solutions that protect health, preserve the environment, and build a cleaner tomorrow.

OUR APPROACH

SUSTAINABLE BY DESIGN

Environmentally responsible solutions designed for long-term impact.

SAFE & RELIABLE

Engineered for safety, reliability and consistent performance.

ADVANCED TECHNOLOGY

Innovative technology for efficient and effective waste management.

COST EFFECTIVE

Low operating costs and minimal maintenance for long-term savings.

OUR COMMITMENT

We aim to create a healthier environment through responsible waste management, continuous innovation and a strong commitment to quality, safety and sustainability.
